"Experience is the only thing we can truly own in our lives..."

Summary

A software developer with a background in automation testing.

I genuinely believe that our World can become much better if every living being had the most positive life experience. I see tremendous opportunities to contribute to the improvement of people's life experiences by developing software solutions. Therefore I would love to join a team of like-minded people, where I can effectively grow and apply my professional and personal skills to benefit the community.

Skills

Front-end	HTML, CSS, JavaScript, Sass, React, Next.js, Gatsby.js
Back-end	Node.js, Express, REST API
Databases	MongoDB, SQL, PostgreSQL
DevOps	Heroku, AWS, Docker
Languages	English, Ukrainian, Russian

Work Experience

Web Design Café

Adelaide, Australia

PM/QA

Sep. 2021 - present

- Developing and maintaining features of the "Prime Practice" company's e-commerce platform (WooCommerce)
- Developing pages for the clients (WordPress)
- Managing development (as well as developing) of the mobile application (React Native) for one of the research projects of Adelaide University
- Structuring the content for a number of SCORM learning courses for the "Opentute" learning platform
- Customizing CSS of WordPress themes
- Managing and coordinating development processes
- Communication with the clients

General Assembly

Australia

FULL STACK SOFTWARE DEVELOPER

Nov. 2020 - Aug. 2021

During the course, I have built several projects using different technologies stacks. The most mature of them is Resume Builder App (work in progress) [lets.Get\(IT\)](#) - an open-source web application for fast and easy creation and publishing of resumes, "tailored" for each particular job vacancy.

STACK: React, Next.js, MongoDB.

Building this application, I've learned that integration of different technologies into one app might be challenging, but also it gives a significant improvement of developer's skills and knowledge base

Relocation

Australia

Feb. 2019 - Nov. 2020

During this period (after moving to Australia), I put all my efforts into settling on the new place, learned a new culture, and embraced a commitment towards change and personal development. I continued my self-education in Software Development until I decided to take a leap and enrolled in a Full Stack Software Engineering Immersive course of General Assembly
